

**CALL FOR PAPERS
EURODISPLAY 2022
Workshop and Conference
September 19-23, 2022
University of Stuttgart, Vaihingen Campus,
Pfaffenwaldring 47
Stuttgart, Germany
www.eurodisplay.uni-stuttgart.de**

Conference Topics

The Eurodisplay 2022 organizing committee encourages the submission of original papers on all aspects of the research, engineering, application, evaluation, and utilization of displays. Paper submissions are specifically welcome for any of the following topics:

1. Active-Matrix Devices
2. Applied Vision/Human Factors
3. Automotive/Vehicular Displays and HMI Technologies
4. Display Electronics
5. Display Manufacturing
6. Display Measurement
7. Display Systems
8. Emerging Technologies and Applications
9. Emissive, MicroLED, and Quantum-Dot Displays
10. Flexible Displays and E-Paper
11. Flexible OLED, MicroLED, QD-LED and other Emissive Materials, Displays and Devices
12. Interactive Displays and Systems
13. Liquid Crystal Technologies
14. Lighting

Abstract/Technical Summary Format and Paper Submission Requirements

General Note: The selection-rejection decision for a paper is based on its originality, quality, relevance and completeness.

Paper Submission:

Authors are requested to submit an initial version of their paper in a format that is already appropriate for final submission, instead of submitting a traditional abstract/summary format. The paper should consist of 4 pages, including all illustrations. If their papers are selected, authors do not need to do anything further, although they have an option to submit a revised paper until the respective deadline for revised papers.

The paper submissions must conform to the sample formats provided on the conference webpage at:

www.eurodisplay.uni-stuttgart.de/call-for-papers

Submission Process:

Once the paper is completed, the authors are required to upload it to:

www.eurodisplay.uni-stuttgart.de/abstract-submission

Additional information must be provided on the online submission form. Authors must:

1. Enter the full title of the paper.
2. Enter the name of the contact author and e-mail.
3. List all the authors and include their contact information as requested on the form.
4. Place the abstracts in the allotted space on the form.
5. Enter the keywords in the space provided.
6. Indicate whether the paper is invited.
7. Indicate if you wish to have your paper considered for oral or poster presentation, if you have a preference.
8. Indicate the closest matching topic from the list included in this Call for Papers.
9. Attach a PDF of the paper.
10. Click on submit.

If you need further assistance, please contact either Bill Klein at wklein@pcm411.com or Samantha Tola at stola@pcm411.com.

Author Timeline

The deadline for receipt of initial paper submissions is June 30th, 2022. Notification of acceptance will be emailed by July 15th, 2022. Deadline for revised papers is August 28th, 2022.

Points of Contact

Program Chair

Patrick Schalberger

University of Stuttgart, Institute for Large Area Microelectronics

Email: programchair.eurodisplay2022@igm.uni-stuttgart.de

General Chair

Norbert Fruehauf

University of Stuttgart, Institute for Large Area Microelectronics

Email: generalchair.eurodisplay2022@igm.uni-stuttgart.de

Speaker Responsibilities

All costs associated with your participation at Eurodisplay 2022 as a speaker will be at your own expense (including travel, housing, registration fee, etc.).
